

# CALL FOR PROPOSAL

**UKC 2023 Dallas**  
*Discovery, Innovation and Dissemination for Transformative Impact*

**Hyatt Regency DFW, Dallas, Texas, USA**  
**August 2 - 5, 2023**  
<https://ukc.ksea.org>

KAERA became an APS (Affiliated Professional Society) of KSEA, and we will organize one of the technical group symposiums at the UKC 2023. Please check details of call for proposals.

Dear KAERA members,

The Korean-American Educational Researchers Association (KAERA) is pleased to announce the Call for Proposal for the 36<sup>th</sup> annual US-Korea Conference ([UKC 2023](#)) organized by Korean-American Scientists and Engineers Association (KSEA). The conference theme is "Discovery, Innovation, and Dissemination for Transformative Impact." KAERA will lead a technical group symposium ([D-1. Education Research, STEM and Social Sciences](#)).

We invite leading experts and young researchers in emerging technology and DEI (Diversity, Equity, and Inclusion) in Education. The first session focuses on the integration of advanced technologies into education. These advances brought changes in the way we learn and teach thereby significantly transforming the educational landscape. With this in mind, it will cover a wide range of topics, including but not limited to the ethical implications of AI technology in education, immersive learning experiences through AR or VR, online or flipped learning, gamification, as well as various pedagogies and teaching models. The second session explores the topic of Diversity, Equity, and Inclusion in STEM education with a focus on Belonging for Koreans and Korean Americans. This session will bring together a group of teacher educators who are doing innovative work in DEI + Belonging. The presentations will focus on issues of DEI+B within the field of STEM teacher education. Topics will include anti-racist pedagogy, cultivating a sense of belonging in the classroom, and unpacking the differences between equity and equality to promote safe learning and teaching environments.

Please submit a [one-page paper](#) to deliver presentations at the Technical Group Symposium. The [one-page paper template](#) must be completed by **May 30, 2023**. During the submission process, please select D-1 as a technical group where the paper will be considered for an oral presentation. All papers must be written in English. The submitted papers will be reviewed and selected by each Technical Group Symposium Chairs. Accepted papers will be published in the electronic version of the UKC 2023 Proceedings.

If your paper is accepted, you will get registration discount (\$100) and a travel support. The detailed information about travel support will be available later. We encourage you to join the KSEA member to get extra registration discount as well.

We look forward to welcoming you to Dallas in August. Please stay tuned for the next announcement for paper submission and other conference details. Should you have any questions, please contact us at [jongpil.cheon@ttu.edu](mailto:jongpil.cheon@ttu.edu).

Sincerely,

KSEA D-1 Technical Group Chairs by KAERA
